

Restoration of AL-RAS

Dubai, UAE, 1993-1995

Adil Abdalla

Restoration Architect, then Head of Research Unit, Historical Buildings Section, Dubai Municipality

Historical, But Not Listed Buildings

No Formal Management Plan, But Apprentice Process

Simple Post Restoration Plans

Technical Merit is Minor due to Short Life-Time

Early Activities as Awareness was Mounted Up

1	Record, Survey & Document The Building
2	Define Museology and Usage Requirements
3	Consolidate the Structure, and Transfer the Loads
4	Remove or Reduce Structural Weights
5	Treat Humidity and Termite, and Isolate Wet Installations
6	Sequential Rebuild Deteriorated Foundations & Walls
7	Redo Lintels, Columns, Beams and Horizontal Ties
8	Insert New Electromechanical Utilities and Facilities
9	Redo Plaster and Ironmongery Frames
10	Redo Roofs & Ceilings with Minimal Weights
11	Provide New Flooring, and Surrounding Banks
12	Provide Finishing Accessories
